

A technical diagram of a car's interior floor plate, likely a driver's side. The diagram shows various components and their locations. A large rectangular area in the center is outlined with a dashed line and labeled "Serial No" in red text. Below this area, there are three rectangular components, possibly air vents or control panels, arranged in a row. To the left of these components is a large, U-shaped component, possibly a pedal or a large vent. The floor plate is shown with various mounting points, including screws and bolts, and a dashed line indicating the overall shape of the plate. The diagram is rendered in a simple, schematic style with black lines and a light gray background for the floor plate.

Serial No
